**RE: Title: Multi-Utility Energy Control System with Dashboard Having  
A Plurality of Interface Gateways  
Attorney Docket No. PWB-119C  
Case 41**

Dear Lou:

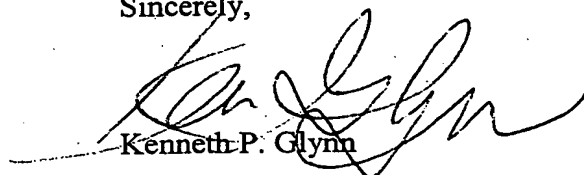

As I confirmed telephonically, the Patent Office rejected the Petition to Revive in the above matter. We discussed options and I indicated that the least expensive, most likely to be successful course of action would be to re-file this case as a continuation-in-part of still pending PWB-120C. I understand that you agreed to have me do this and I have proceeded to set up the file and prepared the documents accordingly.

My fee for preparing the continuation-in-part and docketing and filing it and preparing the execution papers and for handling PWB-119C post-petition matters is \$1,200.00. There will be a government filing fee with Assignment fee of \$410.00.

This new case will have the same title as PWB-119C, but it will have a Docket Number of PWB-122C and will have a new serial number and filing date from the Patent Office when it is filed.

Thank you.

Sincerely,

Kenneth P. Glynn
